SOFT CLOSE TOILET SEAT & HINGE ASSEMBLY

COMPONENTS

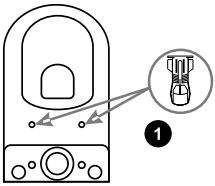

BEFORE INSTALLING YOUR WIRQUIN TOILET SEAT:

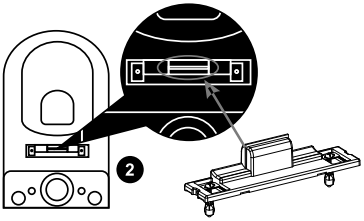

- Verify the colour and size.
- Check that the visual surface is free from cracks and surface defects.
- Ensure that all components are present and in a satisfactory condition. **No claims will be entertained after installation.**

CARE AND CLEANING OF YOUR WIRQUIN TOILET SEAT:

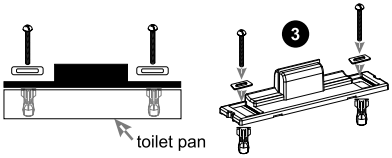

- The seat and cover should be cleaned using warm soapy water.
- Do NOT use aggressive or abrasive cleaners as this may scratch the surface.
- The hinges should be cleaned using soap or mild detergent.
- After cleaning, the hinges should be rinsed in clean water and dried.
- NEVER use bleach, concentrated cleaners or acids as this will cause discolouring and pitting.
- Do not leave bleach in the toilet bowl with the cover closed because it may cause discolouration of the seat and hinges.
- The cover of the toilet seat is for decorative purposes only. The lid is not guaranteed to carry weight. **(Do NOT stand or sit on the lid.)**

- 1. Insert the two expansion plugs into the toilet seat fixation holes in the pan.

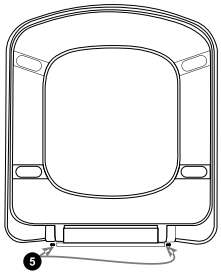

- 2. Position the hinge base over the inserted plugs.
- !!Ensure that the raised portion of hinge base is towards the front of the pan, as shown in the diagram.

- 3. Place the stainless steel washers on the hinge base over the expansion plugs.
- Thread the stainless steel screws through the washer and hinge base and into the expansion plug.
- Tighten the fixation screws to about 80%.

- 4. Place seat in open position vertically above the hinge base i.e. Seat and lid held together.
- Lower seat & flap to closed position.
- Align seat profile to pan profile, front to back & left to right.
- Remove seat gently.
- Screw fixation to 100%.
- Re-fit seat & cover to hinge base and compress downwards. A correct installation will be met with a click.

- 5. Insert the two securing screws and tighten to ensure lasting fixation of hinge base to seat.
